

# Fund update

## Conservative fund

**For the year ended 31 December 2016.**

This update was first made publicly available on 27 March 2017.

### What is the purpose of this update?

This document tells you how the Conservative fund has performed and what fees were charged. The document will help you to compare the fund with other funds. UniSaver Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The fund invests predominantly in income assets (e.g. fixed interest) with only a small percentage in growth assets (e.g. shares). Its objective is to achieve returns of 1.25% above inflation over rolling 3-year periods while keeping the risk of a member losing more than 5% after inflation in any one year reasonably small.

Total value of the fund	\$61,221,142
Number of investors in the fund	1,578
The date the fund started	1 October 2004

### What are the risks of investing?

#### Risk indicator for the Conservative fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data

for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the [product disclosure statement](#) (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	6.36%	4.02%
<b>Annual return</b> (after deductions for charges but before tax)	7.73%	5.41%
Market index annual return (reflects no deduction for charges and tax)	7.73%	5.35%

The market index annual return is based on the returns of a composite index. The composite index is made up of the individual asset class benchmark indices used to measure the performance of each underlying fund/asset class into which the fund invests. Accordingly, the market index annual return for each of the funds is a composite return, calculated using the weighted average return of the benchmark indices used to measure the performance of the underlying funds/assets into which each fund invests. The weighting for each benchmark within the composite is equal to the strategic asset allocation weighting for that asset class. This market index return provides a relative measure of the fund's performance.

Further information about the market index is available on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 December for each of the last 10 years ending 31 December. The last bar shows the average annual return for the last 10 years, up to 31 December 2016.

**Important:** This does not tell you how the fund will perform in the future.

## What fees are investors charged?

Investors in the Conservative fund are charged fund charges. In the year to 31 December 2016 these were:

	% of net asset value
<b>Total fund charges</b>	0.51%
Which are made up of:	
<b>Total management and administration charges</b>	0.51%
Including -	
Manager's basic fee	0.00%
Other management and administration charges	0.51%
<b>Total performance-based fees</b>	0.00%

	Dollar amount per investor or description of how charge is calculated
<b>Other charges</b>	
Administration fee	\$52.32 per annum (deferred members only)

Investors may also be charged individual action fees for specific actions or decisions (for example, withdrawing from or switching funds). See the 'Fees' document on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose) for more information about those fees. Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Mary had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$541.31 (that is 5.41% of her initial \$10,000). Mary also paid \$52.32 in other charges. This gives Mary a total return after tax of \$401.62 for the year.
