Summary of the 2019 PRI Assessment of Russell Investments

As the globally recognised benchmark for the consideration of environmental, social and governance (ESG) issues, the United Nations-supported Principles for Responsible Investment (PRI) provides the best practices to challenge investors around the world to incorporate these factors in their investment decision making.

Russell Investments is pleased to announce that in 2019, the PRI awarded our firm an A /A+ rating for our approach to responsible investing.

Principles for Responsible Investment

Launched in April 2006, the PRI is an investor initiative developed in partnership with the United Nations Environment Program Finance Initiative and the United Nations Global Compact. These global best practices are based on six principles¹:

1. Incorporate ESG issues in investment analysis and decision-making processes
2. Actively own and incorporate ESG issues in ownership policies and practices
3. Seek appropriate disclosure on ESG issues from the entities invested in
4. Promote acceptance and implementation of the principles within the investment industry
5. Work together to enhance effectiveness in implementing the principles
6. Report on activities and progress towards implementing the principles

Each year, signatories of the PRI disclose their approach to responsible investment, policies and procedures. The PRI reviews each company's credentials both on an individual and a peer-relative basis before awarding them an official PRI rating for the year. These principles have become a well-respected global benchmark.
